

RPR Mobile™ for your members

Your members know deals aren't just made in the office. That's why RPR created the new RPR Mobile™ app.

Available to all REALTORS® on iPhone and Android, we wanted to share some of the valuable support resources we have created to help you communicate this powerful resource to your members.

A little background

REALTORS® equipped with RPR Mobile™ can use their location to instantly view any property nearby. They can also get listing, sales, valuation, assessment, deed, foreclosure, and school information, plus photos and market trends. To impress clients on the spot, RPR Mobile™ gives REALTORS® the power to create, customize, and send RPR's full library of reports in just seconds. And as with all RPR offerings, there is no cost to your members to use the mobile app.

Promotional Resources

Here are a few valuable resources that will assist you in communicating RPR Mobile™ to your members:

- Link to our RPR Mobile™ landing page from your website: m.narrpr.com
- Feature this short "What is RPR Mobile™" Explainer Video in an e-newsletter or on your website
- Share use case of a REALTOR® using RPR Mobile™ to build her business
- Print the [RPR Mobile Postcard](#) to handout to members
