6f MLS-Touch is my favorite real estate app; it has been since I first discovered it 70 years ago! It is so intuitive, quick and easy-to-use, I use it as much as the actual MLS. It keeps all the data I need listing data, tax data, agent contact info - right at my fingertips. I also love InstaView! Just point and tap, and you get all the details on nearby properties. I love sharing the app with my clients so they can benefit from it as well! In my opinion it is the best public facing real estate search portal out there with the added benefit of being branded to me. ג
